Subject Index—Volume 99

No. 1, February 25, pp. 1–68
No. 2, April 25, pp. 69–128
No. 3, June 25, pp. 129–186
No. 4, August 25, pp. 187–258
No. 5, October 25, pp. 259–322
No. 6, December 25, pp. 323–000

A

Adenocarcinoma. *See also* Cancer
  bile duct, loss of heterozygosity in bile duct brushings and surgical pathology specimens in, 379
  cervical in situ, risk for, urbanization and, 4
  well-differentiated pancreatic, cytologic criteria for, 44
Adenosquamous pancreatic cancer, cytologic features of, 372
ALK protein, in anaplastic large cell lymphoma, 33
Anaplastic large cell lymphoma, cytologic and immunocytochemical findings in, 33
Anaplastic lymphoma kinase, in large cell lymphoma, 33
Asian screening population, liquid-based cytology vs. conventional Pap smear in, 331
Aspiration biopsy. *See* Fine-needle aspiration biopsy
Atypical repair, in liquid-based cervical cytology, 141
Atypical squamous cells of undetermined significance
  colposcopy triage for, 187 (editorial), 191
  in liquid-based cervical cytology, 113
    reflex HPV testing for, 187 (editorial), 191
AutoCytePrep system. *See also* Cervical cytology, liquid-based
  clinical effectiveness of, 259, 263 (editorial)
AutoPap system. *See also* Cervical cytology, liquid-based
  PapMap sensitivity and, 83
  as primary screening and location-guided rescreening device, 129
Axillary nodes, postchemotherapy touch imprint cytology of, in breast cancer, 346

B

Bacterial vaginosis, risk for, urbanization and, 4
B-cell lymphoma. *See also* Lymphoma
  differential diagnosis of, single primer pair immunoglobulin PCR in, 180
  immunoglobulin heavy-chain gene rearrangements in, laser capture microdissection for, 198
  marginal zone, cytologic findings in, 301
Bile duct brushings
  adenocarcinoma in, loss of heterozygosity in, 379
  ThinPrep smears of, 205
Biliary cancer, loss of heterozygosity in bile duct brushings and surgical pathology specimens in, 379
Biopsy. *See* Core needle biopsy; Fine-needle aspiration biopsy
Birth control pills, ThinPrep smear artifacts from, 75
Bladder cancer
  cystoprostatectomy with urinary diversion for, urethral wash cytopathology after, 352
  nested variant of, cytologic features of, 23
Book reviews
  Cytopathology Review Guide (Holliday), 316
  Practical Urologic Cytopathology (Bardales), 317
Breast, aspiration biopsy of
  for highly suspicious microcalcifications, 357
  p63 in, 172
  papillary lesions in, classification of, 156
  storage of ThinPrep smears from, 223
Breast cancer
  distant metastases in, HER-2/*neu* amplification in, by FISH, 310
  nipple aspirate fluid cytology in, 97
  p63 in, 172
  postchemotherapy axillary nodes in, touch imprint cytology of, 346
  screening for, highly suspicious microcalcifications in, aspiration biopsy of, 357
Breast hamartoma, aspiration biopsy of, 255
Bronchial brush cytology, for pulmonary large cell neuroendocrine tumors, 247
Brush cytology
  bile duct
    adenocarcinoma in, loss of heterozygosity in, 379
    ThinPrep smears of, 205
  bronchial, for pulmonary large cell neuroendocrine tumors, 247
Burkitt lymphoma. *See also* Lymphoma
  differential diagnosis of, single primer pair immunoglobulin PCR in, 180

C

Cancer
  biliary, loss of heterozygosity in bile duct brushings and surgical pathology specimens in, 379
  bladder
    cystoprostatectomy with urinary diversion for, urethral wash cytopathology after, 352
    nested variant of, cytologic features of, 23
  breast
    distant metastases in, HER-2/*neu* amplification in, by FISH, 310
    nipple aspirate fluid cytology in, 97
    p63 in, 172

postchemotherapy axillary nodes in, touch imprint cytology of, 346
screening for, highly suspicious microcalcifications in, aspiration biopsy of, 357
cervical. *See* Cervical cancer
hepatic, hepatitis B virus in, surface, core, and X genes of, 63
lung, bronchial brush cytology in, 247
pancreatic
adenosquamous, cytologic features of, 372
ductal, MUC1/2 expression in aspiration biopsy specimens in, 365
loss of heterozygosity in bile duct brushings and surgical pathology specimens in, 379
well-differentiated, cytologic criteria for, 44
sinonasal, aspiration biopsy in, 105
urothelial, nested variant of, cytologic features of, 23
CD30, in anaplastic large cell lymphoma, 33
CD56, in neuroendocrine tumors, flow cytometry of, 240
CDKN2A deletion, in body cavity effusions, in mesothelioma, 51
Central nervous system, aspiration biopsy of, freehand under CT guidance without stereotactic instrumentation, 277
Cervical cancer
atypical squamous cells of undetermined significance and, 113, 187 (editorial), 191
DNA ploidy in, liquid-based cytology for, 57
projected decreased incidence of, due to screening, 336
risk for, urbanization and, 4
screening for. *See* Cervical cytology
Cervical cytology. *See also* Papanicolaou smears; ThinPrep smears
atypical squamous cells of undetermined significance in, 113
liquid-based
atypical repair in, 141
atypical squamous cells of undetermined significance in, 113
colposcopy triage for, 187 (editorial), 191
reflex HPV testing for, 187 (editorial), 191
clinical effectiveness of, 259 (editorial), 263
vs. conventional Pap smears
in Asian screening population, 331
cytohistologic correlation rates for, 135
in cytologic follow-up for equivocal smears, 342
in HPV typing and DNA ploidy determination, 57, 113
reflex HPV testing in, 141, 149, 187 (editorial), 191
for atypical squamous cells of undetermined significance, 187 (editorial), 191
stability of archived specimens from, 89, 320 (letter)
projected decreased incidence of adenocarcinoma due to, 336
Cervix, squamous and glandular epithelial abnormalities in, urbanization and, 4
Chondrosarcoma, mesenchymal, aspiration biopsy in, 211
Chromosome 7/9 aberrations, in mesothelioma, 223
Chronic lymphoblastic leukemia, differential diagnosis of, single primer pair immunoglobulin PCR in, 180
Colposcopy triage, for atypical squamous cells of undetermined significance, 187 (editorial), 191
Computed tomography, for freehand fine-needle aspiration biopsy, 277
Core needle biopsy, of highly suspicious mammographic microcalcifications, 357
Correspondence, 318
Cystoprostatectomy with urinary diversion, urethral wash cytopathology after, 352

D

DNA ploidy, in cervical cancer, liquid-based cytology for, 57, 113
DNA testing, human papillomavirus, in liquid-based cytology samples, 141, 149, 187 (editorial
for atypical squamous cells of undetermined significance, 187 (editorial), 191

E

Editorials, 1, 187
Effusion cytology, in mesothelioma, ultrafast Papanicolaou stain in, 17
Endoscopic ultrasound–guided fine-needle aspiration biopsy, in suspected pancreatic cancer, 285

F

Fine-needle aspiration biopsy
in adenosquamous pancreatic cancer, 372
in anaplastic large cell lymphoma, 33
of breast
for highly suspicious microcalcifications, 357
p63 in, 172
papillary lesions in, classification of, 156
storage of ThinPrep smears from, 223
of breast hamartoma, 255
endoscopic ultrasound–guided, in suspected pancreatic cancer, 285
in follicular lymphoma, t(14;18)(q32;q21) translocation in, 385
freehand CT-guided, of central nervous system, 277
in marginal zone lymphoma, 301
in mesenchymal chondrosarcoma, 211
of neuroendocrine tumors, CD56 expression by flow cytometry and, 240
in pancreatic ductal carcinoma, MUC1/2 expression in, 365
in round-cell liposarcoma, 28
in sinonasal carcinoma, 105
in small lymphocytic lymphoma in accelerated phase, 293
of spleen, in lymphoid and myeloproliferative processes, 118
of thyroid
in distinction of goiterous nodules from normal tissue, 217
follicular neoplasms detected on, reporting of, 69
of Warthin tumor, 166

in well-differentiated pancreatic adenocarcinoma, 44
Flow cytometry
CD56 expression in, in neuroendocrine tumors, 240
of marginal zone lymphoma, 301
Fluorescence in situ hybridization
in HER-2/*neu* amplification, in breast cancer distant metastases, 310
interphase, in follicular lymphoma, 385
in mesothelioma
CDKN2A detection by, 51
chromosome 7/9 aberrations in, 233
FocalPoint system. *See* AutoPap system
Follicular lymphoma. *See also* Lymphoma
t(14;18)(q32;q21) translocation in, interphase FISH for, 385
Follicular thyroid cancer, misclassification of, 318 (letter)

G

Glandular cell atypia, on Pap smear
cytologic follow-up for, 342
interobserver subjectivity and, 323
Goiter, aspiration biopsy of, 217

H

Hamartoma, breast, aspiration biopsy of, 255
Hepatocellular carcinoma, hepatitis B virus in, surface, core, and X genes of, 63
HER-2/*neu* amplification, by FISH, in breast cancer distant metastases, 310
Hodgkin's disease. *See also* Lymphoma
differential diagnosis of, single primer pair immunoglobulin PCR in, 180
Human papillomavirus, in liquid-based cytologic samples, 57, 113
reflex molecular analysis for, 141, 149, 187 (editorial), 191
Human papillomavirus infection, risk for, urbanization and, 4

I

Immunoglobulin heavy-chain gene rearrangements, in lymphoma, laser capture microdissection for, 198
India, hepatocellular carcinoma in, in situ hybridization in, hepatitis B gene prevalence and, 63
In situ hybridization, in hepatocellular carcinoma, prevalence of hepatitis B genes in, 63

L

Laser capture microdissection, for detection of Ig heavy-chain gene rearrangements, in lymphoma, 198
Letters to editor, 318
Leukemia, differential diagnosis of, single primer pair immunoglobulin PCR in, 180
Liposarcoma, round-cell, cytologic features of, 28
Liquid-based cervical cytology
atypical repair in, 141
atypical squamous cells of undetermined significance in, 113
colposcopy triage for, 187 (editorial), 191
reflex HPV testing for, 187 (editorial), 191
clinical effectiveness of, 259 (editorial), 263
vs. conventional Pap smears
in Asian screening population, 331
cytohistologic correlation rates for, 135
in cytologic follow-up for equivocal smears, 342
in HPV typing and DNA ploidy determination, 57
reflex human papillomavirus testing in, 141, 149, 187 (editorial), 191
for atypical squamous cells of undetermined significance, 187 (editorial), 191
stability of archived specimens from, 89, 320 (letter)
Loss of heterozygosity, in bile duct brushings and surgical pathology specimens, in adenocarcinoma, 379
Low grade squamous intraepithelial lesions cannot exclude high-grade squamous intraepithelial lesions classification, for Pap smears, 272
cytologic follow-up for, 342
Lung cancer, bronchial brush cytology in, 247
Lymph nodes, axillary, postchemotherapy touch imprint cytology of, in breast cancer, 346
Lymphoma
anaplastic large cell, cytologic and immunocytochemical findings in, 33
differential diagnosis of, single primer pair immunoglobulin PCR in, 180
follicular, t(14;18)(q32;q21) translocation in, interphase FISH for, 385
immunoglobulin heavy-chain gene rearrangements in, laser capture microdissection for, 198
marginal zone, cytologic findings in, 301
small lymphocytic, in accelerated phase, cytomorphologic spectrum of, 293

M

Malignant mesothelioma. *See* Mesothelioma
Malignant pleural effusion, in mesothelioma, Ultrafast Papanicolaou stain for, 17
Mammographic microcalcifications, highly suspicious, aspiration biopsy of, 357
Marginal zone lymphoma, cytologic findings in, 301
Mesenchymal chondrosarcoma, aspiration biopsy in, 211
Mesothelioma
body cavity effusions in, *CDKN2A* deletion in, 51
chromosome 7 and 9 aberrations in, 223
pleural effusion in, Ultrafast Papanicolaou stain for, 17
Metastases, in breast cancer
HER-2/*neu* amplification in, by FISH, 310
touch imprint cytology for, 346
MUC1/2, in aspiration biopsy specimens, in pancreatic ductal carcinoma, 365
Mycosis fungoides, differential diagnosis of, single primer pair immunoglobulin PCR in, 180
Myxoid liposarcoma, round cell liposarcoma and, 28

N

Nested variant of urothelial carcinoma, cytologic features of, 23
Netherlands, cervical squamous and glandular epithelial abnormalities in, urbanization and, 4

Neuroendocrine tumors, pulmonary large cell, bronchial brush cytology for, 247
Nipple aspirate fluid cytology, in breast cancer, 97
Non-Hodgkin's lymphoma
differential diagnosis of, single primer pair immunoglobulin PCR in, 180
immunoglobulin heavy-chain gene rearrangements in, laser capture microdissection for, 198

O

Oral contraceptives, ThinPrep smear artifacts from, 75

P

p63, in breast myoepithelial cells, 172
Pancreatic cancer
adenosquamous, cytologic features of, 372
ductal, aspiration biopsy in, MUC1/2 expression in, 365
loss of heterozygosity in bile duct brushings and surgical pathology specimens in, 379
suspected, endoscopic ultrasound–guided fine-needle aspiration biopsy for, 285
well-differentiated adenocarcinoma, cytologic criteria for, 44
Papanicolaou smears. *See also* Cervical cytology
accuracy of, with rapid prescreening vs. full screening, 9
AutoPap system for
PapMap sensitivity in, 83
as primary screening and location-guided rescreening device, 129
glandular cell atypia on, interobserver subjectivity and, 323
vs. liquid-based cytology
in Asian screening population, 331
cytohistologic correlation rates for, 135
in cytologic follow-up for equivocal smears, 342
low grade squamous intraepithelial lesions cannot exclude high-grade squamous intraepithelial lesions classification for, 272
cytologic follow-up for, 342
projected decreased incidence of adenocarcinoma due to, 336
sensitivity of, public expectations and standard of practice for, 1 (editorial)
Papanicolaou stain, ultrafast, in pleural effusion in mesothelioma, 17
PapMaps, sensitivity of, 83
Pleural effusion, in mesothelioma, Ultrafast Papanicolaou stain for, 17
Ploidy. *See* DNA
Polymerase chain reaction assay, single primer pair immunoglobulin, in differential diagnosis of lymphoid malignancies, 180
Pulmonary large cell neuroendocrine tumors, bronchial brush cytology for, 247

R

Reflex human papillomavirus testing, in liquid-based cytology samples, 141, 149, 187 (editorial), 191
for atypical squamous cells of undetermined significance, 187 (editorial), 191
Round-cell liposarcoma, cytologic features of, 28

S

Screening
cervical. *See* Cervical cytology
mammographic, highly suspicious microcalcifications in, fine-needle aspiration biopsy of, 357
Single primer pair immunoglobulin polymerase chain reaction, in differential diagnosis of lymphoid malignancies, 180
Sinonasal carcinoma, aspiration biopsy in, 105
Small cell lung cancer, bronchial brush cytology in, 247
Small lymphocytic lymphoma, in accelerated phase, cytomorphologic spectrum of, 293
Spleen, aspiration biopsy of, in lymphoid and myeloproliferative processes, 118
Squamous intraepithelial lesions, cervical, risk for, urbanization and, 4
Stain, ultrafast Papanicolaou, in pleural effusion in mesothelioma, 17

T

T-cell lymphoma. *See also* Lymphoma
differential diagnosis of, single primer pair immunoglobulin PCR in, 180
ThinPrep smears
of bile duct brushings, 205
breast, storage of, 223, 320 (letter)
cervical. *See also* Cervical cytology, liquid-based
clinical effectiveness of, 259, 263 (editorial)
vs. conventional Pap smears
cytohistologic correlation rates for, 135
in cytologic follow-up for equivocal smears, 342
oral contraceptive–related artifacts on, 75
Thyroid, fine-needle aspiration biopsy of
in distinction of goiterous nodules from normal tissue, 217
follicular neoplasms detected on, reporting of, 69
Thyroid cancer, follicular, misclassification of, 318 (letter)
Touch imprint cytology, of postchemotherapy axillary nodes, in breast cancer, 346

U

Ultrafast Papanicolaou stain, in effusion cytology in mesothelioma, 17
Urbanization, cervical squamous and glandular epithelial abnormalities and, 4
Urethral wash cytopathology, after cystoprostatectomy with urinary diversion, 352
Urine cytology, in nested variant urothelial carcinoma, 23
Urothelial carcinoma, nested variant of, cytologic features of, 23

W

Warthin tumor, aspiration biopsy of, 166
Well-differentiated pancreatic adenocarcinoma, cytologic criteria for, 44
